Projects

Beatmaker

- This is a BeatMaker. A webapp which will make you dance. I have made this using pure JavaScript.
- Cherry on the top, The easy to use UI design powers your creativity on few clicks.
- Link To The Website :- <https://adarshnjena.github.io/BeatMaker.github.io/>

Ecommerce Website

- Developed fully functioning e-commerce website with the use of bootstrap as a framework and php as a backend language.
- This was my project during my training program at internshala.

Expense Tracker

- This is an expense tracker. Add, delete, graph, and a lot more. I have made this using react framework. My first ever project on react, I have used react state to manage the data, Resulting a fully functioning web app.
