Projects

BeatMaker
- This is a BeatMaker. A webapp which will make you dance. I have made this using pure JavaScript.
- Cherry on the top , The easy to use UI design powers your creativity on few clicks.
- Link To The Website :- `https://adarshnjena.github.io/BeatMaker.github.io/`

Ecomerse Website
- Developed fully functioning e-comerse website with the use of bootstrap as a framework and php as a backend language.
- This was my project during my training program at internshala.

Expense Tracker
- This is an expense tracker . Add , delete , graph , and a lot more. I have made this using react framework. My first ever project on react , I have used react state to manage the data , Resulting a fully functioning web app.
- Link To The Website :- `https://expensetracker-adarsh.netlify.app/`

Portfolio
- I have developed it using HTML,CSS and Js.
- Link To The Website :- `https://adarshnjena.github.io/bio.github.io/`

Tic Tac To
- I have developed it using HTML,CSS and Js.
- Link To The Website :- `https://adarshnjena.github.io/tic_tac_to.github.io/`

Experience

Internshala
